Affidavit-2 (For the applications submitted under Chapter I/II/IV except Closure of the Institution)

	Existing Clause	Proposed Modification to the Clause
11.	**13: That the Land is contiguous**, there is no dispute pertaining to the said Land;	**13:** There is no dispute pertaining to the said Land; **That the Land measuring …… Acre, on which <Name of the proposed Institution>is located was not mortgaged for any purpose to any Institution on the date of filing the application and that status is continuing till date and shall continue till the date of issuance of the letter of approval (Not applicable for New Programme / New Level);**

Annexure – Academic Calendar Year – Detailing Two Academic sessions – July and January

July Session

Sr. No.	For Technical Institutions	Schedule
1.	Last Date of Granting Approval by AICTE	30th April
2.	Grant of Affiliation by University / Board	31st May
3.	Last Date for Cancellation of Seats for Technical Courses with FULL Fee Refund	\ 31st July
4.	Last Date up to which First Year Students can be Admitted Against Vacancies	14th August
5.	Commencement of Classes for First Year Students of Technical Courses	14h August
6.	Last Date for Lateral Entry Admission to Second Year Courses for Newly Admitted Students	14th August

January Session

Sr. No.	For Technical Institutions	Schedule
1.	Last Date up to which First Year Students can be Admitted Against Vacancies	19th January
2.	Commencement of Classes for First Year Students of Technical Courses	20th January

Concept Note

Proposal for Pilot Implementation of Experiential Learning Programmes (ELPs) [Industry – Academia Collaboration]

1. Background

In accordance with the *National Education Policy (NEP) 2020*, AICTE proposes to introduce **Experiential Learning Programmes (ELPs)** as a pilot initiative to bridge the gap between academic learning and workplace application. The goal is to make students industry-ready by enabling them to **learn directly within industrial environments**, gain **hands-on experience**, and **build employable skills** while studying.

2. Objective

To create a **structured and mutually beneficial partnership** between higher education institutions and industries, ensuring that students gain real-time industrial exposure and that industries participate in developing the next generation of skilled professionals.

3. Implementation Framework

As a **pilot project**, select AICTE-approved institutions situated in regions with a **strong industrial base** will be allowed to offer these programmes in Institutions **only through a formal MoU** with identified industries collaboration.

The MoU shall clearly specify:

- The **curriculum framework**, jointly designed and approved by both parties.
- **Roles and responsibilities** of the institution and the industry.
- **Assessment and certification mechanisms**.
- **Placement commitments** after programme completion.

4. Eligibility

Institutions:

- AICTE-approved institutions should have listed **in NIRF (Engineering/Management)** or with proven track records of industry collaboration.

Industry Partners:

- Large Industry / Corporation having **turnover of about ₹100 crore (average over 3 years)**.

- Dedicated **training infrastructure**, laboratories, and mentors to host students.
- Every attempt to provide the placement or absorption opportunities upon successful completion.

5. Programme Design and Delivery

- **Curriculum Development:** Jointly framed by academic and industry experts, ensuring relevance to current and emerging technologies.
- **Structure:**
  - **Upto 50% experiential/work-based learning** at industry sites.
  - Remaining academic components at the institution, blending theory and application.
  - Integration of project-based learning, internships, and live industry assignments.
- **Faculty Composition:**
  - Academic instructors from the institution.
  - **Industry mentors** to co-teach and evaluate practical components.
- **Student Eligibility:**
  - Students admitted through a transparent, merit-based system.
  - Provision for working professionals or upskilling candidates where applicable.

6. Infrastructure Norms

Institutions and industries must jointly ensure:

- **Smart Classrooms and ICT-based learning systems.**
- **Laboratories** (physical or remote) for hands-on experimentation.
- **Immersive learning setups** such as AR/VR/XR-enabled simulation labs.
- **Workplace immersion centres** within industry premises.
- **Digital platforms** for continuous monitoring, attendance, and assessment.
- Adequate **student support systems**, hostels or transport, and safety provisions during industrial visits/training.

7. Assessment and Certification

- **Continuous assessment** through projects, industry tasks, and performance logs.
- **Joint evaluation** by institutional faculty and industry mentors.
- **Summative assessments** conducted as per AICTE-approved examination norms.
- Students shall receive a **degree/diploma/certificate** as per AICTE nomenclature, clearly indicating the experiential component.

8. Quality Assurance and Monitoring

- A **Joint Academic Committee (JAC)** comprising representatives from both the institution and the industry shall oversee curriculum delivery, attendance, safety, and quality.
- Periodic reporting to AICTE with data on student performance, innovation outcomes, and placement records.
- Annual review by AICTE; successful pilots to be recommended for national rollout.

9. Duration and Pilot Period

- Programme duration: As per AICTE's approved structure for the respective level (Diploma/UG/PG) and in line with NCrF.

10. Expected Outcomes

- Industry-ready graduates with practical and analytical competencies.
- Strengthened **industry–academia partnerships** leading to co-creation of innovation ecosystems.
- Creation of a **national model for work-integrated technical education** aligned with NEP 2020 and Skill India objectives.
